

Merkur[®] Displacement Pump

312792D

ENG

For use with high-performance finishing and coating pumps in hazardous and non-hazardous locations. For professional use only.

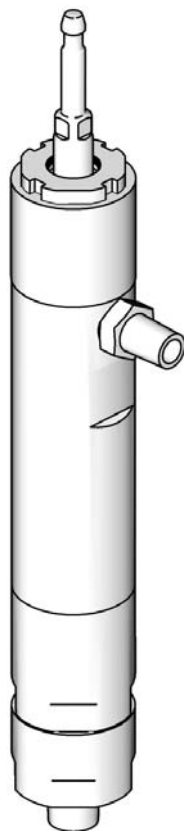

Important Safety Instructions

Read all warnings and instructions in this manual.

For complete warnings and instruction see your pump or package manual. Hazard symbols refer to specific procedure risks. Save all instructions.

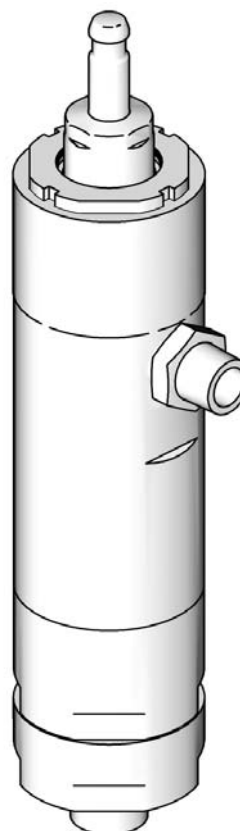

See page 3 for model information, including maximum working pressures.

Models

Check your displacement pump's identification marking for the 6-digit part number. Use the following matrix to define the construction of your displacement pump. For example, displacement pump model LW025A represents a wet-cup style stainless steel displacement pump, 25 cc, with a Chromex coated rod and 3 UHMWPE, 2 PTFE packings.

ti12415a

To order replacement parts, see **Parts** section starting on page 9. The digits in the matrix do not correspond to the reference numbers in the Parts drawings and lists.

L	W		025	A	
First Digit	Second Digit (Description)		Third, Fourth, and Fifth Digits (Displacement Pump Volume Per Cycle* in cc)	Sixth Digit (Packings; Displacement Rod Coating)	
L (Lower)	W	Wet-cup style, stainless steel	025	A	3 UHMWPE, 2 PTFE; Chromex™
			050		
			075		
			100		
			125		
			150		

* Cycle refers to combination of one upstroke and one downstroke.

Model, Series	Maximum Working Pressure psi (MPa, bar)	Fluid Inlet	Fluid Outlet
LW025A, Series A	3000 (20.7, 207)	1/2 in. npt	3/8 in. npt
LW050A, Series A	4500 (31.0, 310)	3/4 in. npt	3/8 in. npt
LW075A, Series A	4800 (33.1, 331)	3/4 in. npt	3/8 in. npt
LW100A, Series A	3600 (24.8, 248)	3/4 in. npt	3/8 in. npt
LW125A, Series A	2900 (20.0, 200)	1 in. npt	1/2 in. npt
LW150A, Series A	2400 (16.5, 165)	1 in. npt	3/4 in. npt

Component Identification

- B Wet Cup
- C Fluid Outlet
- D Fluid Inlet
- E Lower Cylinder
- F Upper Cylinder
- G Intake Valve

Repair

General Information

NOTICE

Reference numbers and letters in parentheses in the text refer to the callouts in the figures and the parts drawing.

Always use Genuine Graco Parts and Accessories, available from your Graco distributor. If you supply your own accessories, be sure they are adequately sized and pressure rated for your system.

Preparation

Follow all warnings and instructions in your pump manual for the following preliminary steps:

1. Flush the equipment.
2. Relieve the pressure.
3. Remove the displacement pump from the pump assembly.

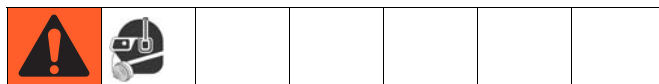

Disassembly

Lay out all removed parts in sequence to ease reassembly. Clean all parts with a compatible solvent and inspect them for wear or damage.

NOTICE

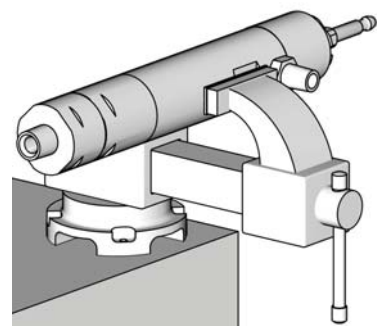

Repair Kits are available. See the chart on page 11 to order the correct kit(s) for your pump.

- Parts included in the Seal Repair Kit are marked with an *, for example 8*.
- Parts included in the Seat Repair Kit are marked with a †.
- Parts included in the Check Ball Kit are marked with a ♦.

Threads are very sharp. Use a rag to protect hands.

1. Place cylinder (1) sideways in a vise with soft jaws.
2. Use an adjustable wrench on hex of intake housing (23) to unscrew it from the lower cylinder (2). Loosen vice briefly and tip out the ball (24♦).

ti12918a

3. Remove the seat (22†) and use an o-ring pick to remove the seal (26†) from the intake housing. See FIG. 7.
4. Use an adjustable wrench on hex of lower cylinder (2) to remove it from the upper cylinder (1) and slide it straight off the pump. Be careful not to damage the piston/rod assembly (3).
5. Remove the o-ring (21*†) from the top of the lower cylinder.
6. Loosen the wet cup (5).
7. Pull the piston/rod assembly out the bottom of the upper cylinder. Remove the spring (10*), piston packings (12* and 13*) and glands (11* and 14*).
8. Remove the wet cup (5).
9. Remove the throat packings (7*, 8*) and glands (6*, 9*) from the bottom of the wet cup.

NOTICE

The jam nut can remain attached to the upper cylinder.

10. Remove the spring (4*) from the top of the upper cylinder (1).

11. Remove the wet cup seal (27*) and the upper cylinder seal (28*).
12. Clamp the piston in a vice. Use a hex wrench to remove the nut (17†) from end of piston.
 - LW025A–LW050A: 7 mm (1/4 in.) hex
 - LW075A–LW150A: 13 mm (1/2 in.) hex

FIG. 2. Remove Flow-Through Nut

13. Remove the o-ring (18†), seat (15†) and ball (16♦). See FIG. 5.

Reassembly

1. Clean and inspect all parts.

NOTICE

Replace all o-rings removed from the pump. Compressed o-rings may cause the pump to leak.

2. Lubricate and install new wet cup seal (27*) and upper cylinder seal (28*).
3. Install the male gland (6*), v-packings (7*, 8*), and female gland (9*) into the wet cup (5). Alternate the v-packings with the lips facing down. Lubricate the packings.

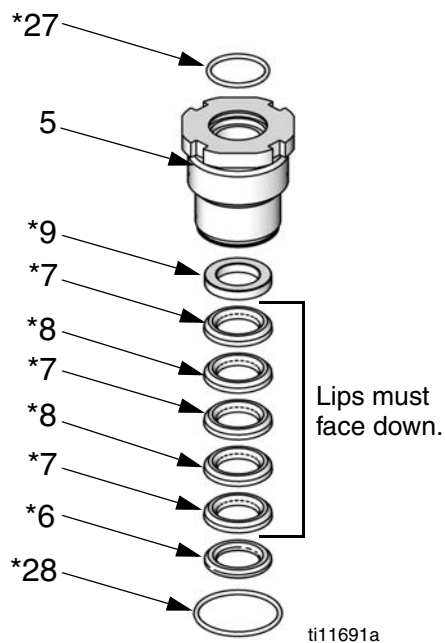

FIG. 3. Replace Throat Packings

4. Install the spring (4*) in the top of the upper cylinder.

NOTICE

All threads, packings, and seals must be well lubricated. Use Lubriplate (Graco Part Number 285791) or a similar product.

5. Lubricate the threads and screw the wet cup (5) into the upper cylinder (1), hand tight.

6. Install the spring (10*), female gland (14*), v-packings (12*, 13*), and male gland (11*) into the bottom of the upper cylinder (1). Alternate the v-packings, with the lips facing up. Lubricate the packings.

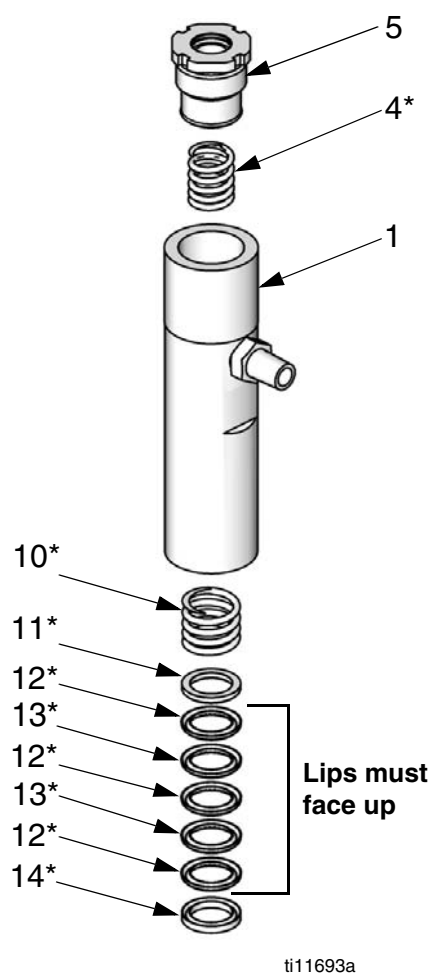

FIG. 4. Replace piston packings.

7. Place the ball (16♦) in the piston body. Install the seat (15†) and o-ring (18†). Lubricate the o-ring and the threads of the flow-through nut (17†). Screw the flow-through nut (17†) into the piston/rod assembly (3).

8. Place piston in vice and torque flow-through nut (17†) as specified in the following table.

Displacement Pump	Torque
LW025A–LW050A	58-62 ft-lb (78-84 N•m)
LW075A–LW150A	78-82 ft-lb (105-111 N•m)

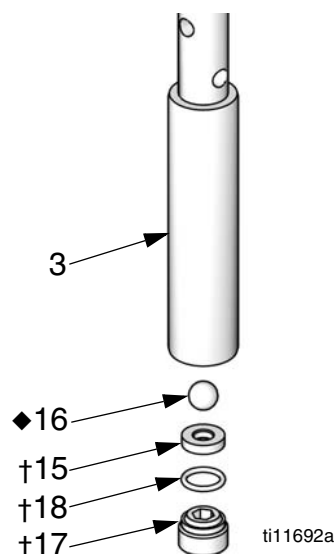

FIG. 5. Replace piston ball and seat.

9. Push the piston/rod assembly (3) into the upper cylinder (1).
10. Lubricate and install the seal (21*) on the top of the lower cylinder (2).
11. Lubricate the threads and screw the lower cylinder (2) onto the upper cylinder (1). Torque to 95-105 ft-lb (128-142 N•m).

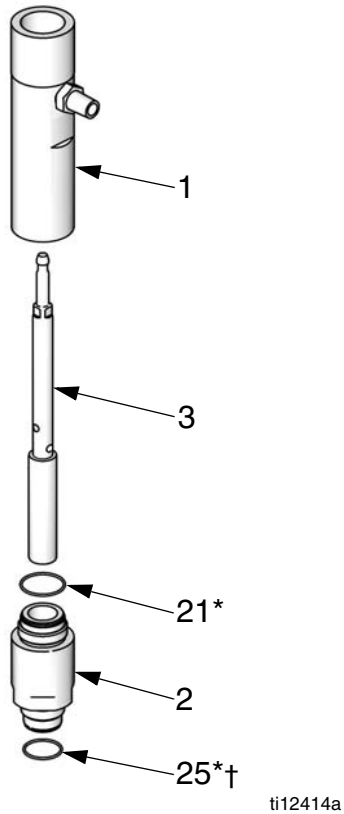

FIG. 6. Assemble piston/rod assembly and cylinders.

12. Lubricate and install the seal (25*†) on the bottom of the lower cylinder (2).
13. Install the o-ring (26†) and intake seat (22†) into the top of the inlet housing. Lubricate the o-ring. The seat (22†) is reversible. Turn over or replace as needed.

14. Lubricate the seal (25*†) and threads of the lower cylinder (2). Place the ball (24♦) on the seat (22†).

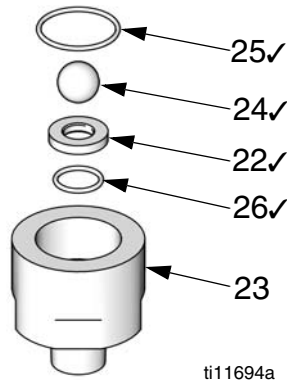

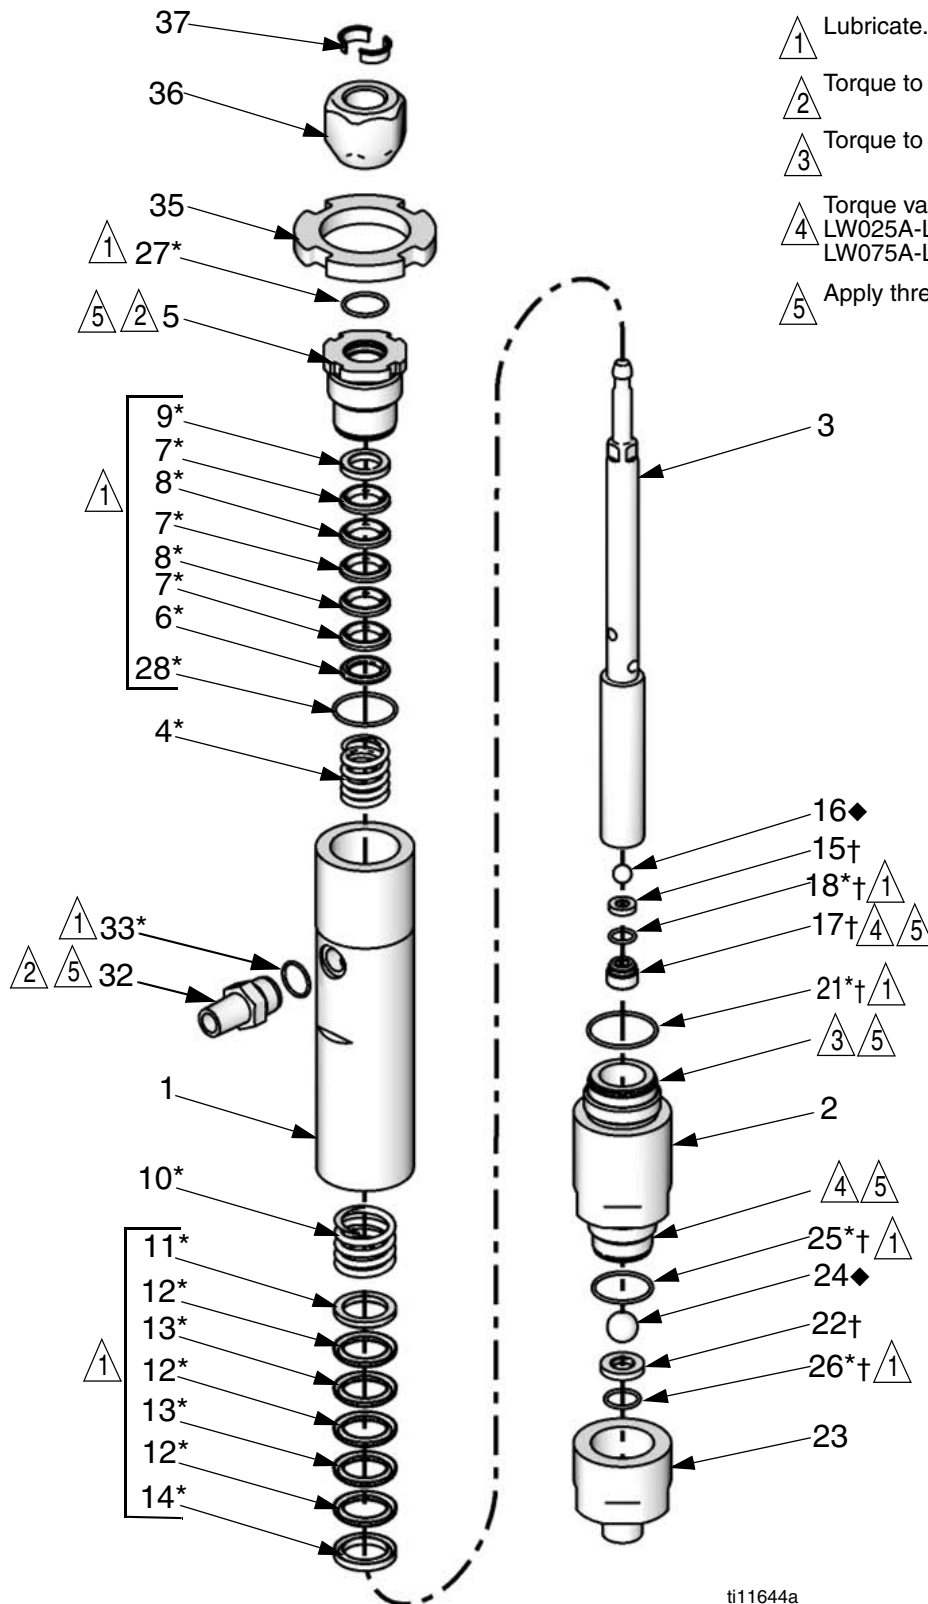

FIG. 7. Replace intake ball and seat.

15. Keep upright to screw the housing (23) into the lower cylinder (2) hand tight, so the seat remains firmly in place. Then clamp the cylinder in a vice and torque as specified in the following table.

Displacement Pump	Torque
LW025A–LW050A	58-62 ft-lb (78-84 N•m)
LW075A–LW150A	78-82 ft-lb (105-111 N•m)

16. Torque wet cup (5) to 58-62 ft-lb (78-84 N•m).

Technical Data

Maximum fluid working pressure	
LW025A	3000 psi (20.7 MPa, 207 bar)
LW050A	4500 psi (33.1 MPa, 310 bar)
LW075A	4800 psi (33.1 MPa, 331 bar)
LW100A	3600 psi (24.8 MPa, 248 bar)
LW125A	2900 psi (20.0 MPa, 200 bar)
LW150A	2400 psi (16.5 MPa, 165 bar)
Maximum operating temperature	
160°F (71°C)	
Fluid inlet size	
LW025A	1/2 in. npt
LW050A– LW100A	3/4 in. npt
LW125A–LW150A	1 in. npt
Fluid outlet size	
LW025A–LW100A	3/8 in. npt
LW125A	1/2 in. npt
LW150A	3/4 in. npt
Stroke length	2.5 in.
Wetted parts	stainless steel, carbide, UHMWPE, PTFE

Graco Standard Warranty

Graco warrants all equipment referenced in this document which is manufactured by Graco and bearing its name to be free from defects in material and workmanship on the date of sale to the original purchaser for use. With the exception of any special, extended, or limited warranty published by Graco, Graco will, for a period of twelve months from the date of sale, repair or replace any part of the equipment determined by Graco to be defective. This warranty applies only when the equipment is installed, operated and maintained in accordance with Graco's written recommendations.

This warranty does not cover, and Graco shall not be liable for general wear and tear, or any malfunction, damage or wear caused by faulty installation, misapplication, abrasion, corrosion, inadequate or improper maintenance, negligence, accident, tampering, or substitution of non-Graco component parts. Nor shall Graco be liable for malfunction, damage or wear caused by the incompatibility of Graco equipment with structures, accessories, equipment or materials not supplied by Graco, or the improper design, manufacture, installation, operation or maintenance of structures, accessories, equipment or materials not supplied by Graco.

This warranty is conditioned upon the prepaid return of the equipment claimed to be defective to an authorized Graco distributor for verification of the claimed defect. If the claimed defect is verified, Graco will repair or replace free of charge any defective parts. The equipment will be returned to the original purchaser transportation prepaid. If inspection of the equipment does not disclose any defect in material or workmanship, repairs will be made at a reasonable charge, which charges may include the costs of parts, labor, and transportation.

THIS WARRANTY IS EXCLUSIVE, AND IS IN LIEU OF ANY OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTY OF MERCHANTABILITY OR WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE.

Graco's sole obligation and buyer's sole remedy for any breach of warranty shall be as set forth above. The buyer agrees that no other remedy (including, but not limited to, incidental or consequential damages for lost profits, lost sales, injury to person or property, or any other incidental or consequential loss) shall be available. Any action for breach of warranty must be brought within two (2) years of the date of sale.

GRACO MAKES NO WARRANTY, AND DISCLAIMS ALL IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, IN CONNECTION WITH ACCESSORIES, EQUIPMENT, MATERIALS OR COMPONENTS SOLD BUT NOT MANUFACTURED BY GRACO. These items sold, but not manufactured by Graco (such as electric motors, switches, hose, etc.), are subject to the warranty, if any, of their manufacturer. Graco will provide purchaser with reasonable assistance in making any claim for breach of these warranties.

In no event will Graco be liable for indirect, incidental, special or consequential damages resulting from Graco supplying equipment hereunder, or the furnishing, performance, or use of any products or other goods sold hereto, whether due to a breach of contract, breach of warranty, the negligence of Graco, or otherwise.

FOR GRACO CANADA CUSTOMERS

The Parties acknowledge that they have required that the present document, as well as all documents, notices and legal proceedings entered into, given or instituted pursuant hereto or relating directly or indirectly hereto, be drawn up in English. Les parties reconnaissent avoir convenu que la rédaction du présent document sera en Anglais, ainsi que tous documents, avis et procédures judiciaires exécutés, donnés ou intentés, à la suite de ou en rapport, directement ou indirectement, avec les procédures concernées.
